

IMPORTANT HEALTH AND SAFETY WARNING

When playing our game software:

- Play in a well-lit room.
- Take a 15-minute break every hour.
- Stop playing immediately if you feel dizzy, nauseous, tired, or experience a headache.

Epileptic Seizure Warning

Some individuals without a history of epilepsy may still experience epileptic seizures triggered by exposure to certain visual stimuli, such as flashing lights, rapidly changing images, or repetitive geometric patterns. This can occur when watching television or playing video games.

If you have a history of epilepsy or experience any of the following symptoms while playing, stop immediately and consult a doctor:

- Visual disturbances
- Muscle contractions
- Involuntary movements
- Temporary loss of consciousness
- Disorientation
- Convulsions

For additional safety information related to console games, please refer to the *Safety and Warning Information* provided by the respective console manufacturers.
